

Business Project „Winter Sports Congress 2020“

- **Project Client**
FH Kufstein Tirol
- **Project Duration**
2 semester
- **Project Goal**
Organization of an event
- **What was the main focus of your project?**
The main focus of the Winter Sports Congress 2020 was to establish the congress as a renowned congress for winter sports at the FH and to create a successful event with a lot of participants.
- **What did the team members like the most? What did they enjoy the most?**
What we liked best on this project was the cooperation between master and bachelor students and of course the joint task of organising a challenging event. In this case a winter sports congress.
- **Which personal interests or requirements should someone bring along for this project?**
One should bring a sense of teamwork, as well as personal qualities like listening and communicating with one another and accepting, that there are more ways to handle things differently into the project. Furthermore, one should be interested in winter sports to completely dedicate oneself to the project at hand.
- **What did you learn?**
Communication is not always easy, especially when the project is held in another mother tongue. Sitting together and talking with one another is very helpful. Moreover, not everything lies within your own or the team's power. You need to always be flexible and have a plan B to follow.
- **What was the biggest challenge?**
Communicating in another mother tongue as there occurred many unwanted conflicts and misunderstandings. Additionally, finding external speakers and workshop leaders nearly half a year before the event and in the middle of the winter sport season was quite the challenge.
